

Internship qualifications:

The Family Support Counselor is responsible for teaching the Parenting classes utilizing the Nurturing Parenting evidenced-based curriculum and reporting to the Family Support Coordinator. The Nurturing Parenting program provides parenting classes to voluntary and court-mandated clients with substance use disorders, domestic violence and other family issues. The Family Support Counselor is trained to have extensive knowledge and skills in working with the Nurturing Families Program Curriculum. They work with each family and facilitate weekly parenting groups which helps families develop strength-based action plans to address areas identified as challenges, provide information to improve parenting skills, teach child development and maintain collaborative relationships with primary care providers and the community. Provide quality group facilitation and coordination that supports the overall wellbeing of parents and families.

*I am looking for someone who is passionate about family life, children and adults. Someone with a background in sociology, psychology, child welfare, social work, and even early childhood. They would be responsible for learning our Nurturing Families Curriculum, and learning on how to implement it with individuals. Be comfortable with technology as well as in person client contact. I am looking for an inter who would love to learn more about how environment and people's life experience impact their lives.
